

DESCRIPTION

This highly concentrated sewer tracing dye is formulated for use in all types of sewer flow studies and pollution investigations. It creates an intense fluorescent yellow/green color for maximum visibility under a wide variety of conditions. This dye contains biodegradable, non-toxic ingredients. When used at the proper dilutions, it is harmless to wildlife, and will not affect the operation of sewer treatment processes. Non-natural fluorescent color promotes safe use and aids in controlling public reactions.

CAUTION

Harmful if swallowed. Avoid contact with skin, eyes or mucous membranes.

FIRST AID:

IF IN EYES: Flush eyes and under eyelids with plenty of cool water for at least 15 minutes. If irritation persists, obtain medical attention.

IF ON SKIN: Scrub area with soap and water. Remove contaminated clothing and launder separately before reuse. If irritation persists, obtain medical attention.

IF SWALLOWED: Contact physician or poison control center immediately. Rinse out mouth with water. Give affected person 1 to 2 glasses of water. Do not induce vomiting unless instructed to do so by medical personnel. Never give anything by mouth to an unconscious person.

IF INHALED: Remove person to fresh air.

See M.S.D.S. for complete safety information.

KEEP OUT OF REACH OF CHILDREN

HANDLING AND STORAGE: Keep container tightly closed when not in use. Avoid excess heat and open flame. Do not store in unmarked containers. Rinse thoroughly with water before recycling container.
